

Medicare Part D Transition Policy

Overview

For Medicare Part D members who are new to HIP, we want to make your transition as seamless as possible. That's why we have policies in place for any prescription drugs that you may be taking. During the first 90 days of membership, we offer a temporary supply of medications to Medicare Part D members who:

- Are taking a medication that is not on the HIP formulary, or
- Are taking a medication that is subject to certain restrictions such as prior approval, quantity limits or step therapy, depending on place of service.

HIP will offer a temporary one-time fill for a nonformulary drug. The copay will be based on one of our approved formulary tiers. It will also be consistent with cost-sharing charged for non-formulary drugs that are approved under a coverage exception. Copays for members who are eligible for "extra help" will never exceed the copay maximums set by CMS for low-income members.

What are the details of the retail pharmacy policy?

Provided that the drug is dispensed from a participating pharmacy, HIP will offer a one-time fill of up to a 30-day supply of a drug, even if,

- The drug is not a HIP formulary drug.
- The drug requires prior approval.
- The drug does not meet the required step therapy edits.

Who is eligible?
